

We want to assure our loyal customers that we are committed to being responsive and responsible while navigating these times with everyone's safety in mind. We are in a unique position to be able to provide our full services without any face to face contact! On that note if, when self isolating you are taking the opportunity to clean and organize your home, give us a shout and we can help you out. Be safe everyone!

As we carefully navigate through a world troubled by COVID-19, we must be reminded that we are dealing with an unprecedented situation that continues to evolve and change day-to-day in both Canada and around the world. Our primary focus remains to be vigilant in the health and safety of our people and the people we serve in workplaces and homes. As a company that places a high priority on our people, our communities, and our planet, we wanted to keep our lines of communication as open as possible and communicate all developments as they arise.

Actions we continue to take:

- We continue to monitor communications from health officials and global health authorities.
- We continue to address business concerns, and we will maintain an open line of communication so that we can be prepared should any additional measures be required.
- We continue to ask all team members to come together in ensuring a safe and healthy work environment by following best practices.
- We are advising all team members to monitor their health and the health of those in their household, and follow guidelines issued by health organizations with regard to those who show symptoms.
